

After 75 Years,
Introducing Our Best Wellworth Ever.

Highline® Comfort Height
K-3999

wellworth toilet
Exceptional Performance. Exceptional Value.

THE BOLD LOOK
OF **KOHLER**®

Maximum Power

3:2 ratio between valve intake and outlet harnesses the natural force of gravity and optimizes flush performance.

Virtually Plug-Free

Water delivery is precision-designed to make the new Wellworth virtually plug-free.

Easy to Service

Universal replacement gasket fits all KOHLER® canister flush valve toilets. The gasket takes only seconds to replace and doesn't require multiple replacement parts.

3-Bolt Installation

Three pre-installed bolts save installation time and provide more options for adjustment.

Versatile Options

A variety of rough-in, trip lever, Insuliner® and tank lock options.

New Design

The tank has been updated with an elegant flare that complements a wide range of bathroom designs.

Efficient Intake

Water enters the valve from 360 degrees, creating a smooth, consistent water flow.

Ideal Retrofit Footprint

Great for remodeling, the toilet base is large enough to cover most existing toilet footprints.

Engineered to Clean

Greater than 50% more water passes through the bowl rim, optimizing water flow for a long, clean and efficient rinse.

Smooth Chain Action

Redesigned trip lever arm initiates water intake with one smooth action without kinks or hang-ups.

Durable Canister Design

Unlike rubber flappers that tend to warp and deteriorate over time, the canister flush valve relies on a rigid structure with minimal exposure.

Generous Water Spot

The water spot, or the water surface area in the bowl, has not changed, so the toilet stays clean while using less water.

Light-Touch Flush

Canister flush valve's cylinder shape makes the trip lever very easy to flush.

Exceeds Drain Line Code

ASME A112.19.2/CSA B45.1 test results show that our new Wellworth toilets meet or exceed all industry requirements, including drain line carry.

Saves Without Compromise

Wellworth 1.28 gpf models can save up to 16,500 gallons of water per year and pay for themselves over time without sacrificing performance.

Productive & Efficient Inventory: 8 SKUs form 15 unique combinations for a variety of rough-in configurations.

SKU	SKU Description	Tank SKU	Bowl SKU	Insuliner (-U)	Rough-In	Water Usage	Bowl Shape	Bowl Height

The new Wellworth is available in six color options: White (-0), Black Black™(-7), Almond (-47), Ice Grey (-95), Biscuit (-96) and Sandbar (-G9).

WaterSense™ labeled toilets use at least 20% less water than standard 1.6-gallon toilets while still meeting strict flushing performance guidelines.

Note: All models available in right-hand trip lever (-RA) and tank cover locks (-T).
